

TÖRKEN Whitepaper

TÖRKEN is a Memecoin based on Solana, designed to bring flavor and fun to the blockchain community. Risen from the streets of crypto Twitter and inspired by the cultural icon of Döner kebab, TÖRKEN isn't just a token, it's a movement. With blazing speed, low fees and a meaty meme strategy, TÖRKEN is made for raiders, traders and memelords alike.

Our Mission

To build a vibrant and flavourful crypto community, powered by memes, culture and an unshakable commitment to humour and hype.

Why TÖRKEN?

- Memes with Meat: No generic dogs or frogs here, we serve spicy kebab memes made fresh daily.
- Solana Speed: Lightning-fast transactions with negligible fees.
- Raid-Ready: Tools and bots are used for organised community raids.
- No VC & no presale: 100% fair launch, just community and kebab vibes.
- Active Dev: Dev is creating new Ideas every week

Utility & Ecosystem

- TÖRKENTAIL: AAA, GOTY, 11/10 ~IGN
